Dear Vickie and Jimmy,

We have many beautiful memories of our London trip and we love talking about it and thinking about you. You did so much for us and I am so glad we could see you and where you live and all the great sights we saw. Sandy is due back this evening and I am anxious to talk to her. Elaine has been over every day since our return which forces me to get over the jet lag which I really felt when I got back. Our time in London flew by, but Stella and Mary said it seemed like months. Mary is making up for it now and is expected soon to leave Elaine here for the afternoon. I have a roast in the oven for French dip as I don't want to bother much with cooking. The doll has not been returned but a notice is going to

be in the school paper which is sent to all the parents.

Mary still runs every morning as soon as Diane leaves for school and then she has to hurry and leave at 9:30 for her class in Seattle.

With the re-districting, Mike is now or will be our Congressman and I think his re-election will be in trouble as everyone, or the majority in our area is Republican.

Jimmy, I just want to tell you that when you called eleven years ago and said you were married, I was surprised because I didn't know you had met a girl you loved, but I always knew when you did, she would be the greatest, and she is. You are both wonderful and thank you for all our wonderful times with you.

Mon. morn. Sandy called. Love,
last night and talked to
dad as I was in bed. More
We heard about your big
change in plans concerning the carrier.
Now later as I have to leave for Mary's
as Diane isn't going to school today.

H.
